Student Health Record Form

Name: _____ Student Number: _____
Last First Middle Initial

I understand that student health information is protected and confidential under State of Florida and federal laws. I voluntarily provide, and consent to my medical provider or physician providing, the medical information contained in this document to Camsen Career Institute and health care facilities that I am assigned to as part of Camsen Career Institute's EMS program requirements. I also understand that all requested Student Health Record information is a prerequisite to enrollment in the clinical training of any EMS program. Failure to complete this record will prevent my participation in the clinical training. The student and Health Care Examiner (MD, DO, PA, ARNP) must sign in the appropriate spaces provided on the form. **Documentation of all titers, skin testing, and x-rays must be attached to the student health record.**

SECTION 1: PERSONAL INFORMATION

All areas of this section must be completed. This information will be kept on file and used in the event that the student must be contacted or an emergency contact is required.

SECTION 2: REQUIRED INFLUENZA INJECTION (FLU SHOT)

Students participating in a clinical rotation must receive the influenza injection. Students that cannot participate in the influenza injection process as a result of a medical condition or refuse to participate in the influenza injection may be required to participate in additional measures established by a clinical site. Additionally, it may jeopardize the student's ability to participate in the clinical portion of the Instprogram. It is highly recommended that all students receive the influenza injection.

SECTION 3: REQUIRED TITERS/TESTS

- A. Varicella (Chicken Pox):** A Varicella Titer must be drawn and **the results attached. If records of Varicella Vaccine are not available then documentation of this titer is required.** The date of the titer and results must be indicated in the appropriate area. **(INDICATING THE DISEASE PROCESS OR IMMUNIZATION DATES IS NOT ACCEPTABLE FOR DOCUMENTATION IN THIS AREA).**
- B. Mumps, Rubeola (Measles), and Rubella (German Measles):** A Mumps, Rubeola, and Rubella Titer must be drawn and **the results attached. If vaccines history or records of the MMR (Mumps, Measles, Rubella) Vaccine are not available then documentation of the titer is required.** The dates of the titers and the results must be indicated in the appropriate area. **(INDICATING THE DISEASE PROCESS OR IMMUNIZATION DATES IS NOT ACCEPTABLE FOR DOCUMENTATION IN THIS AREA).**
- C. TB Skin Test:** Tuberculosis/TB Skin Tests are required. The TB Skin tests must be read within 48-72 hours. **The dates and results of the TB Skin Test must be attached.** The Skin Test must have been performed within the last three (3) months to be considered a recent test. **In the event the results indicate a positive skin test or the student has a history of a positive TB skin test, a chest x-ray is required.**

Chest X-ray: A recent Chest x-ray is required if a positive TB skin Test is reported or there is a history of a positive TB Skin Test. The chest x-ray must have been completed within the last three (3) months to be considered current. **Results must be attached.**

SECTION 4: HEPATITIS B VACCINE

Students must provide documentation of the initiation or completion of the Hepatitis B vaccine series at the time of application. It is highly recommended that the student complete the series while enrolled in the program. Further information of the Hepatitis B Vaccine is provided on the **Student Health Record Form** on pages 3. **A record of the Hepatitis B Vaccine or antibody test results must be attached if not declined.**

SECTION 5: STUDENT'S STATEMENT

Student must read and sign this statement on page 3 of the Student Health Record

SECTION 6: EXAMINER'S STATEMENT

The Health Care Examiner (MD, DO, PA, and ARNP) must read, sign, and confirm that the student can meet the Physical Demands associated with the program in the Examiner's Statement Area on page 4 of the Student Health Record.

SECTION 4: HEPATITIS

Introduction: Health care professionals are at risk of exposure to blood and body fluids contaminated with the viruses that cause HIV and Hepatitis. Consistent use of Standard Precautions is the best known means to avoid transmission of these viruses or other contaminants. Students will be taught Standard Precautions before they provide care to any patient in the clinical setting. Although it is rare, a health care worker may become exposed to one of these viruses through accidental transmission. Currently, there is no vaccine that protects against the HIV virus. However, the Hepatitis B vaccine is an effective means of preventing Hepatitis B. As a student who will be providing direct patient care, you should discuss this vaccine with your health care provider.

About the Vaccine: The Hepatitis B Vaccine is a genetically engineered “yeast” derived vaccine. It is administered in the deltoid muscle (arm) in a series of three doses over a six month period. You should seek additional information about the vaccine from your health care provider; especially if you have an allergy to yeast or may be pregnant, or are a nursing mother.

I have initiated the Hepatitis B Vaccine Series with my first dose listed below:

1st Dose: Date: ____/____/____

2nd Dose: ____/____/____
(One month after 1st dose)

3rd Dose: ____/____/____
(Six months after 1st dose)

OR

I have already completed a Hepatitis B Vaccine Program with dates of injections listed below:

1st Dose: Date: ____/____/____

2nd Dose: ____/____/____
(One month after 1st dose)

3rd Dose: ____/____/____
(Six months after 1st dose)

OR

Antibody testing has revealed that I have immunity to Hepatitis B. Yes _____ No _____

(ATTACH COPY OF LAB REPORT).

SECTION 5: STUDENT'S STATEMENT

In order to satisfy medical program requirements, I hereby consent to the release and disclosure of my personal health information provided on the **Student Health Record Form** to Camsen Career Institute and any health care facility in which I am assigned for on-site clinical training. I understand that my personal health information is required to facilitate my participation in the clinical training, which is required for program completion. I also hereby release and hold harmless Camsen Career Institute and receiving health care facilities from any claim of violation of HIPAA or any other medical privacy rights that may arise for the release of my personal health information provided in the **Student Health Record Form**.

CRIMINAL HISTORY INFORMATION CHECKS REQUIRED FOR MEDICAL CENTER CAMPUS PROGRAM STUDENTS

Florida law requires level 2 criminal background screenings for “all employees in position of trust or responsibility”, pursuant to §435.04, Florida Statutes (2004). The Joint Commission of Accreditation of Healthcare Organizations (JCAHO), a healthcare accreditation entity, also requires healthcare facilities to conduct background screenings on employees, students, and volunteers in accordance with state law and regulation and/or the internal procedures of the healthcare facility. The purpose of the level 2 criminal background screenings, which include fingerprinting and a state and federal criminal records check, is to ensure patient safety and maintain trust and integrity within the healthcare professions.

Many of the Institute's healthcare training facilities now require the Institute to conduct level 2 criminal background screenings on all faculty, students and any other person who participates in clinical training at a healthcare facility. In response to this requirement, all faculty, students or any other persons that participate in the Institute's clinical training programs are required to obtain a level 2 criminal background screening before beginning their participation or continuing their participation in any of the Institutes clinical placement programs. In most instances, previous screenings are not accepted by the Institute.

To obtain the level 2 background check for your enrollment in your selected program at Camsen Career Institute, applicants must do the following:

1. Contact our Student Services Office for Background Check and Drug Screen Packet
2. Complete the information received in packet for the completion of the background check and drug screen process.
3. Once the drug screen is obtained and background check has been submitted, the results will automatically sent to you and Camsen Career Institute. These results will be documented on appropriate forms and be place in your student file.
4. Your application will then be mark as complete and processed for registration.

CAMSEN CAREER INSTITUTE EMS PROGRAMS

ACKNOWLEDGMENT AND CONSENT FOR RELEASE OF INFORMATION

I understand that placement in a clinical setting is an essential component of my education in a health science program offered by the EMS Programs at Camsen Career Institute.

I have been informed that many healthcare agencies require a level 2 criminal background screening as a prerequisite for placement in an agency. I hereby consent to Camsen Career Institute receiving the results of my level 2 criminal background screening. I also understand that this information will be held confidential by the Institute and will not become a part of my student record. I give the Institute permission to disclose and/or share the results of the screening with a clinical agency for the sole purpose of clinical placement eligibility within a clinical agency.

I acknowledge that the clinical agency may make the determination, regarding specific criminal charges, that would disqualify me from participating in a clinical program, and that Camsen Career Institute is not involved in, and has no control over, that determination. I understand that if I am disqualified from participating in the clinical program as a result of the criminal background screening, I may not be permitted to continue in the EMS program in which I am enrolled.

I hereby sign this form voluntarily with the understanding that a level 2 criminal background check is a prerequisite to clinical placement in a Camsen Career Institute EMS programs.
